

## Melville is a Community in Bloom

Melville's Community in Bloom is an exciting volunteer program, an initiative designed to promote civic pride, environmental responsibility and beauty in the City of Melville.

Through growing business sponsorship it plants and transports street flower barrels and provides summer care.

With the support of the Recreation Department, City Hall staff and Melville Public Works, it also plants and cares for sponsored beds and planters around the city.

Volunteers care for beds at the Melville entrances, the Post Office, the Royal Bank corner, the CNR bed, the swimming pool and the raised beds on Horticulture Lane.

The committee is also involved in the Martha's Garden project at St. Peter's Hospital, which salutes Sisters of St. Martha who operated the old hospital for 40 years between 1940 and 1980.

The Melville Millennium Committee created a great legacy for Melville with the silhouette project and 28 silhouettes are now found throughout Melville recognizing businesses, service organizations, sports and cultural groups, churches and local citizens. For an updated "Melville Silhouette Brochure" stop in at the Tourism Centre at 76 Halifax Avenue at the junction of Highway 47 and Highway 10.

**PRAIRIELAND**
